Cognitive Psychology: Memory Models & Attention Frameworks

Comprehensive review of Atkinson-Shiffrin multistore memory model, Baddeley's working memory model, encoding, and cognitive retrieval.

CampusVerse Academic Library • Arts and Humanities > Psychology > Cognitive Psychology & Memory

---

1. Multi-Store Memory Model

Sensory memory, Short-Term Memory (STM capacity 7 +/- 2 chunks), and Long-Term Memory (LTM with episodic and semantic stores).

2. Baddeley & Hitch Working Memory Model

Central executive coordinating phonological loop, visuo-spatial sketchpad, and episodic buffer during active cognitive processing.
